

Keep your Phone within Reach with a Dual-Style Car Phone Holder Mount

Are you someone who gets important calls when you are in car? But using the phone when you are driving can be very dangerous. So how about keeping your phone within your reach so that you don't get distracted when driving. Then the [Dual-Style Car Phone Holder Mount](#) can be the best product for you.

This fantastic gadget will keep your mobile in one place and prevent you from getting distracted while driving. Just mount the device in one place and fix your mobile in the holder.

Features:

- **Easy access to your Phone:**

Clip this phone mount holder on your wheel or around it, and then use it as you please.

- **Wide Grasp:**

You can clip this holder to extensive gaps, approximately 4.6 to 6.8" wide.

Two different settings:

You can either push the holder back or pull it forward according to your position. This will allow easier reach to the phone without any extra effort.

- **Flexibility:**

This gadget is also very flexible to attach it almost everywhere in your car. It has a 3M sticker and a 270° rotating arm. The holder can also rotate to almost 360° so that you can use the mobile in both landscape and portrait mode.

- **Attach it anywhere in the Car:**

Another great feature about this phone holder is that you can attach it anywhere. You can clip it to the air vents and the wheel. With the help of a 3M sticker, you

can put it on your windshield and even the dashboard. Hence, perfect for all types of drivers.
