

Turn your Room into the Ball with USB Ceiling Night Light

Does the dark haunt you? Let's make it fun and cool with [USB Ceiling Night Light](#). Light up the ceiling wherever you are up for a festive feel and mood. Whether having a fun night or an indoor party with your friends, this mini LED-based ceiling light will turn your room into a ball.

The minimal portable light measure 21.2 x 1.4 cm can boost the mood in seconds right after plugging it into any laptop. If you do not have a laptop, you can use it with any USB port plug like a wall charger outlet or a portable power bank. It is a travel partner that can go with you on hiking or summer vacation to light up your tent or summer house.

Whether it's a home celebration or night out on the town or even a millstone party at the office, there is no need for heavy disco balls and bulky equipment to make the mood. This light will make your mood with lovely colors. Moreover, its flexibility makes it ideal to fit anywhere like ceiling, back of the car seat, or hang with the tent without the fear of breakage. You can wrap it, twist it, or bend it according to your mood.

This minimal light also cares about your neighbors. That is why it facilitates you to direct where you want it to shine. However, it comes in a choice of red and purple with a dial to change lighting effects and patterns. It can shine like stars, dots, or like a constellation projection. Let's light up the room and rock the party with high brightness while considering the power.
