

# Put Your Things at One Place with Multifunctional Backseat Clip-On Tray

Isn't it irritating to put everything around while driving? Yes, it frustrates sometimes. You need to try our [Multifunctional Backseat Clip-On Tray](#) that offers extra space behind the seat. Keep your drink, phone, or snacks in the place with this ergonomic and robust tray. It hangs behind the back and safely carries whatever you have in your hands.

This tray does not require much effort and can be installed easily without requiring much effort. In order to install, you need to take off the headrest and pop the poles into the holder slots. The hanger of the tray will fit perfectly, which is ready to carry your essentials. However, if you are not using the tray, snap the tray base to fold it away.

As the shape reflects, it can ideally and successfully hold the drink without spilling. It features a drink holder that is 2.8 inches in diameter, which is moderate to hold standard-sized glass, bottles, and cans. Moreover, the tray space is 7.3 x 5 inches in width and length. It is the perfect size tray for the backseat that does not irritate the person sitting behind. Furthermore, it will hold your phone snacks and whatever you want to put over it.

Fumbling around with typical backseat drink holders and door pockets will not benefit you from any angle. Keep your drink safe and must have things in your reach with the ergonomic multifunctional backseat Clip-on holder. It is literally a treat for travel enthusiasts.
