

Keep your Car A/C Dust Free with the Car A/C Vent Brush

Are you tired of looking at the tiny particles of dust in your A/C vent? But when you try to clean it, you cannot reach the small gap? Then the [Car A/C Vent Brush](#) can be a life savior for you.

This cleaning brush is a must-have if dust enters your car very easily and you want to clean it quickly. Hence, it also helps to keep the air in your car fresh and clean.

Features:

- **Double sided brush:**

This Car A/C Vent Brush has two different types of brushes. One side has soft hair bristles, and the other is a microfiber towel. The double style of this brush helps to clean every corner of your A/C duct.

- **Build with the best Material:**

This brush is made with soft ABS plastic that allows a firm grip on the brush.

- **Dimensions:**

This brush is perfect with a 6.5" x 0.8 x 1.6" stick to hold. These dimensions make it effortless to get a good grip on the brush.

- **Soft and Smooth:**

Some of the brushes that are available in the market are very hard. Therefore, they leave scratches on the frame of the A/C. However, the Car A/C Vent Brush has a very soft and smooth texture that will not cause any scratches on the car.

- **Detachable Brush Head:**

After cleaning the vent, you don't want to use the same dirty brush again. Therefore, the brush head is detachable and very easy to wash. Just clean it after a few uses and attach it back on the stick to clean your A/C vent.
