

Light up your Dog walks with LED Dog Leash

Do you have a dog and go for a walk every night and have some bonding time? Then this [LED Dog Leash](#) can be a product you might be attracted to.

Having lights on your dog's leash is something very rare but cool. So if you want something like that for your dog, then this LED Dog Leash is perfect. This illuminates your walk with the dog and makes your dog the center of attraction. Following are some of the features of this great leash.

Features:

- **Long-lasting batteries:**

Having long-lasting batteries is a plus point for this LED Dog Leash. Two CR2016 batteries are included in this set that works for almost 60 to 80 hours. It helps you get light when you are walking your dog and makes the walking session more fun.

- **Center of Attraction:**

Another great thing about having this LED Dog Leash is giving your dog a spotlight of its own. Even if you are in one of the most crowded places yet, your dog will stand out and be the center of attraction.

- **Safety:**

Sometimes at night, because of the darkness, there are cases when road accidents occur because the driver can't see the dog. But this LED Dog Leash can catch people's attention and prevent crashes or accidents.

- **Light effects:**

Another cool feature of this LED Dog Leash is that you can change the light setting to the flashing setting with just one click. It makes your dog look cooler and makes the walking part more fun.
