

# Dancing Fish Catnip Kicker Toy – Keep Your Pet Occupied

Nowadays, it's becoming complicated to find some time for family and friends from the hectic schedule. How is it possible to entertain a pet cat with that kind of busy routine? As these tongueless creatures are unable to express what they feel, if their caretaker doesn't spend quality time with them.

Pet-concerned professionals invented the [Dancing Fish Catnip Kicker Toy](#) to keep your cat intrigued and busy throughout the day. Its plush fish comes to life and starts to dance like a real one without the requirement of human assistance. Your pet cat will feel it has found its new best friend.

Its equipped with a detecting motor that makes it flops when a cat tends to interact with it. If it is left abandoned, it doesn't move – seems dead till the cat moves towards it again. Thanks to the motion sensor to add some twists to the playful toy. Its sensor adjusts the level of motion depending upon your pet's movement.

Does your cat feel bored? Or is the toy unable to excite its interest? Well, we got something special for your kitty. Take your cat's entertainment to the next level by utilizing a built-in velcro pocket. Add some catnip or cat food for endless enjoyment.

The toy comes with a built-in lithium battery that is rechargeable with a USB power cord—fabricated with polypropylene cotton, which is bite-resistant, safe, and non-toxic. Washable with a simple cleanser. You just need to remove battery and sensor before doing it. Dry it completely before reinserting them back.
