

Fuel up Your Phone While Traveling by 15W Qi Wireless Dual-Hold Car Phone Charger

Do you always forget to charge your phone in the hustle of life? We took some time, but we have arranged a backup to fuel up the phone while traveling. You get ultra-performance with the [15W Qi Wireless Dual-Hold Car Phone Charger](#) that supports smartphone wireless-charging capacity.

It is a powerful charge who knows how to work and where to put effort. It means the power qi charger ensures no foreign object detection while charging the phone. You can set your device without worrying about credit cards, keys, coins, and other metal items because they cannot interrupt the charging transmission.

This is a two-in-one charger, including a suction cup base and an air-vent clip. Both types are interchangeable, providing you with the choice to switch up your installation style, whichever style suits you the best according to your need.

These strong, sturdy, and durable charges feature a solid magnet to keep the phone in its place. The silicon charging base ensures a tight grip and does not damage through any road bumps, jerks, and ups and downs.

If you need something to make your life easy by charging the phone while traveling, this Qi charger is your go-to product. You can get it and easily fit it in the car without breaking your bank and keep using the phone at home or in the office.

This is a dependable charger with sturdy ABS plastic and silicone rubber combination to build a versatile accessory with the ability to give a long run. This is essential equipment for a busy life. Get one for yourself and make your life fuel up.
