

# Get Continuous Breeze with Rechargeable USB Bladeless Hand Fan

What else do you need when you have this [Rechargeable USB Bladeless Hand Fan](#) in the scorching heat? The affordable, versatile and appealing fan is ideal for everyday use. Once you get this fan, it will become irresistible to carry in your bag wherever you go. This is a practical gadget that will keep you cool everywhere.

Its freshness and convenience are on another level. The high-quality construction ensures its long run while maintaining its shape and appearance. Made from high-quality PC plastic has the ability to resist scratches and dirt marks. This is a durable as well as highly reliable fan made to serve you and give you a long run.

The portable fan is travel friendly and easily slips into any bag and pocket. The size of 8.25 inches in height and 2.68 inches in width is ideal for carrying it all around. The fan can easily fit in any hand and the table to give a cool and continuous breeze.

It does not feature any blades. It means it ensures your ultimate safety, whose importance doubles when you have naughty kids. High fan speed does not interrupt your peaceful environment, and it is barely noticeable. The addition of rubber at the bottom of the fan keeps it firmly in place.

However, it has no blades; it can give tough competition to bladed fans. 3-speed fan modes permit you to select the best suitable one for you in a particular condition. Choose high fan speed in intensely hot and low fan speed while working to maintain focus.

Get this fan, insert the battery of 2000mAh and enjoy 8 hours of non-stop smooth, cool breeze.
