

Make your Morning Walks Fun with the Retractable Outdoor Silicone Bottle

Do you ever wish you had a water bottle that just folds and fits in the palm of your hand? The [retractable outdoor silicone bottle](#) is here to grant your wish as it does just that. It rolls up to a size that easily fits your fist. It's portable and lightweight and can be hooked on your belt during a morning walk.

Takes little to no less space:

This compact retractable bottle takes little to no space as it is just 5.5" in size when folded (just a little more than an adult thumb). You can fit it into your picnic hamper when you have loads of stuff to carry and don't have enough space left to fit water bottles in it.

Safe and non-toxic:

This bottle is made up of food-grade silicone and food-grade PP. Plus, it is BPA-free! So, you don't have to worry about ingesting any harmful chemicals while you drink water from this bottle.

No more leaky bottles:

Leaky bottles are a nuisance. The retractable outdoor silicone bottle is leak-proof and doesn't spill water even when it rolls over.

Protects your environment:

An average American uses 13 plastic water bottles per month. This retractable bottle lasts for two years on average, which means you save about 156 bottles per year by using it! What is a better way to give back to your environment?

Lightweight:

This collapsible silicone water bottle is about the weight of the small glue bottle! No more strain on your wrist and elbows.

Conclusion:

The Retractable outdoor silicone bottle makes your life easier and your adventures fun. Whether you are hiking, backpacking, or just traveling, this bottle keeps you well hydrated wherever you are
