

# Arctic Blast Reviews: Everything That You Need To Know!!

Have you ever suffered from chronic pain? So much so that it took a toll on your life and affected your mobility? If not, then you are one lucky fellow. According to a [survey](#), 50 million people in the United States suffer from chronic pain, and 19.6 million have high impact chronic pain. The ratio is higher in women as compared to men.

To be honest, chronic pain has affected each of us somehow. We all have suffered from muscle cramps to shooting headaches at some time. Even the companies offering pain relieving services make the most out of your suffering. Acupuncture, physical therapy and over the counter medicines are a few expensive options with no guaranteed results.

What if I tell you there is a way to get rid of our pain without going to expensive places and opting for non-effective pain management techniques? Arctic blast is an all-natural, pure and safe supplement that can aid in your chronic pain and help you lead a happy and healthy life.

Read further as we discuss the Arctic blast, its pros and cons and its components.

## What is Arctic Blast?

Our medicine cabinet is often flooded with pain killer tablets for migraine, period cramps, sports injuries and joint pains. Whenever we feel the need, we usually rush to the cabinet and get painkillers. Honestly, it is just a short term way to cope with it. Pain killer medicines are not a permanent solution, and you might also get addicted to them after a while.

Even a few of them have severe side effects; they damage the small filtering blood vessels in the kidney, causing a chronic kidney impairment. We have often heard several brands proclaiming risk-free and natural products for pain management. But

are they reliable? Probably not.

Arctic Blast is a supplement created by Nutriomo Labs Pte Ltd. and Kevin Richardson, a pain specialist. The Arctic blast pain reliever liquid is based on his pain management expertise and natural ingredients to produce remarkable results. It is backed by research, and it is not addictive like other over the counter medicines.

Arctic blast helps people suffering from shooting pains. Primarily it is used for treating arthritis. Unlike most pain killers, which take about an hour to work, it only takes 52 seconds to relieve the pain. It is like switching off the pain button and getting quick relief.

## **How Arctic Blast Pain Relief Drops Works?**

Arctic Blast consists pain reliving ingredients like peppermint and camphor oil. These components seep through the skin, provide instant relief, and accelerate wound healing. Each bottle has accurately measured ingredients making it a balanced supplement. Arctic Blast has DMSO that interacts with nerves and suppresses the pain from the origin, providing quick comfort.

Primarily the main reason for pain is clotting or poor blood circulation. This dynamic supplement improves the blood flow and makes the anti-inflammatories and pain reliving ingredients travel to affected areas faster.

The Arctic blast also helps reduce inflammation, and it is an ideal treatment for rheumatoid arthritis and sprain. The camphor oil has relaxant properties that act as a muscle relaxant making it a perfect product for menstrual cramps and tight tissue and muscles.

If you suffer from suicidal thoughts and sleepless nights due to stress, Arctic Blast is the solution to all your problems. St. John's Wort Oil helps treat depression, stress and anxiety. The supplement instantly lifts your mood and helps cure chronic insomnia.

The peppermint oil in the supplement has a soothing effect on the skin and anti-inflammatory properties. Arctic Blast provides all these fantastic benefits and much more without being addictive. Its natural and safe ingredients help heal you quickly without any side effects.

## **Ingredients of Arctic Blast**

Before you decide to get this Arctic blast pain relief drops for yourself, let's look closely at the combination of ingredients in detail.

### **Peppermint oil**

Peppermint oil is extracted from the plant peppermint. It is mainly used to add a flavour to drinks and beverages. Apart from acting as a flavouring agent, peppermint oil is known for its remarkable healing properties.

Ancient people in Greece, Egypt and Rome used it for treating digestive issues. Its analgesic, anti-inflammatory and antispasmodic properties make it a key ingredient in Arctic Blast. The active elements of peppermint oil are limonene, menthol and carvacrol, which helps cure headache and GI issue.

### **Emu oil**

Emu oil is made from the fat of an Emu bird. It is a flightless bird that is native to Australia. The oil has carrier capabilities and sweeps through the skin quite quickly. It can penetrate your skin and carries other ingredients as well.

The Emu Oil is full of antioxidants like carotenoids, flavones, tocopherol, and phospholipids and possesses anti-inflammatory properties.

It is rich in Omega 3,6, and 9 fatty acids. Its role in Arctic Blast is to treat joint muscle pain, inflammation and muscle soreness.

### **Camphor oil**

Camphor oil is extracted from the branches, roots, stumps and chipped wood of camphor trees. Camphor oil is a common ingredient in pain-relieving and analgesic medications. According to a study, it is an ideal medication for wound healing and

pain relief.

The oil has a strong odour and causes a tingling when directly applied to the skin. The anti-inflammatory properties of the oil help cure arthritis and muscle spasms. Camphor oil helps Arctic blast interact with the sensory nerves receptors relieving pain and providing instant relief.

## **St John Wort Oil**

St John Wort oil is extracted from the flowers of a Hypericum Perforatum, a plant native to Europe with yellow star-shaped flowers. It is a well-known medicine used for relaxing muscles and healing wounds and bruises. The Arctic blast has an adequate amount of St John wort oil, making it a mind tranquillizer, muscle relaxant and nerve tonic. St John Wort Oil contains a chemical that sends messengers to the brain that regulates mood. It is commonly used for treating depression and chronic anxiety.

## **Dimethyl Sulfoxide**

DMSO is a chemical solvent used to treat chronic pains and inflammation in muscles. It is also used for bladder infections and limb pain. DMSO helps the medicine get inside the body quickly, affecting the proteins, carbs, fats and water in our body. Arctic Blast has the appropriate amount of DMSO, making it a safe supplement to use on regular bases. DMSO is an FDA approved product that can be taken orally, applied on the skin or intravenously. You can also use it with other ingredients or as a stand-alone supplement. It helps heal the wound quickly and relieves pain, which is why it is so famous among athletes and sports lovers.
