

Bathtub Whale Toy – A Mini-Fountain for Your Baby

Babies are notorious for being troublesome in the bath. That is why you must consider buying this cute little whale toy. It comes with a water sensor meaning that it automatically switches on when put in water and turns off when taken out. How cool is that!

Made especially for cranky toddlers, this [Bathtub Whale Toy](#) will make their fantasy come true as it is equipped with so many fun features.

Shuts Off Automatically

This toy is battery-operated; you will need three AAA batteries making bath time easier for you and fun for your kids. The water fountain is the fun part; once you put it in water, the toy will automatically absorb water and spray it from above.

100 % Safe for Your Child

With this toy, you shouldn't be worried about the wellness of your child. The bathtub whale toy is made to keep the safety of children in mind. It is assembled with high-quality, durable plastic material with no sharp corners. Furthermore, the battery area is protected with waterproof technology so that there is no chance of water leakage.

A Fountain with Lights

With built-in multi-colored lights (with up to seven colors) and rotation. The toy is perfect is to keep your little one's attention and keep their eyes glued to it for hours. You can also turn off the light as per your wish.

The nozzle on top produces a series of sprinkles by absorbing water through the holes present. Moreover, this toy is not just for bathroom tubs; you can leave it in a swimming pool or other water bodies.
