

Yeti Ice Sippy Cup – Great for Young Ones

Small kids in their growing age can get quite demanding and curious, which is why you need to be extra cautious about what you leave around them. These kids can also be quite messy while drinking and eating since they don't have full control of their limbs.

To counter this lack of control, you can use this [Yeti Ice Sippy Cup](#) and give it to your toddlers so that they can learn how to drink while not making a mess.

Ergonomic Design

With a capacity of 12oz of liquid, Yeti Ice Sippy Cup is made with young kids in mind, which is why it is equipped with an ergonomic design and is quite easy to hold on to. Since the design is also leakproof, you don't need to worry about spills.

Bite Proof Spout

The whole Yeti Ice Sippy Cup is made with toxin-free materials so that you can rest knowing that your young one is safe. Since the process of teething is on the rise with toddlers, they tend to bite everything.

This is why the spout of this cup is bite resistant and is raised a little bit so that your young one is able to drink easily.

Made with Quality Materials

While shopping for anything related to your young one, you need to make sure that it is made with high-quality materials. These Yeti Ice Sippy Cups are made with 304 Stainless steel, and the double-walled design makes it easy to maintain the temperature of your drinks, whether hot or cold.
