

Your Best friend: Umbrella for Infant Stroller

Before the invention of the umbrella stroller, parents had no choice but to use ordinary strollers for a walk with their babies. The inventors felt it was necessary to create a lighter version of the stroller when the faults with the regular stroller were so visible.

The umbrella for the stroller was designed to offer ease and comfort when out and about with your child. It is small and portable, even with your baby inside. With LaKinza's [Umbrella for Infant Stroller](#), you can shield your baby from unexpected rain.
