

# Mushroom Lamp Charger Station – A One Place Hub For You Stuff

Our Mushroom Light & Charging Station is the ideal spot to store your smartphone, tablet, or other USB-powered gadget while they are charging. It is a fashionable and practical lamp.

This desk addition makes it simple to work stylishly with USB ports that offer faster charging, LED lights, and a power wire.

Our USB lamp, which has a mushroom-like design and can charge all your favorite devices, offers plug-in flexibility, and can be customized with any charging cable you require. This lamp can accommodate any situation, whether you're seeking for a socket on the walls or one concealed in a closet.

## Manage Everything

The USB 3.0 ports let you plug in, power up, and secure a variety of devices, including tablets, smartphones, and more. Simply take the lamp out of the base if you wish to move it.

## Put It On By Plugging It In

A power cord is included with the [LED Mushrooms Lamp & Charging Station](#) so you can plug it in to give your lamp or charge dock immediate electricity. You have quick-charging capability with a 9V/1.2A and 5V/1A charging output so you can refuel and start going.

## Protected From All Sides

For your piece of mind, our lamp has protection against power surges, overheating, tripping, and more.
