

LED Dog Leash – Taking Dog Walking Up a Notch

Unbreakable bonding and unforgettable memories are created while walking one's dog. It is the time of the day your doggo looks forward to the most. So you must not let anything stop you and your pet from embarking on this memorable journey, not even the rain or darkness. With this [LED Dog Leash](#), you can improve nighttime visibility while giving your pet some sparkle. Be aware of where your small loved one is in unpleasant weather, in the fog, or at night.

All Eyes on this Lovely Leash

The LED Dog Leash boasts a beautiful bright red color that catches everyone's attention. It is the easiest way to ensure that the onlookers and drivers see your pup so it remains out of harm's way. Whether at a park or turning a corner on the road, this lovely leash will undoubtedly grab everyone's attention and ensure your dog's safety even at night.

Lighten up Your Dog's Day

Your furry friend will adore the bright light flair and go gaga for it. The light contains two different modes for variety. These modes can be changed from a steady light to an attention-grabbing flashing light with a button on the leash. Now you can take your canine friend on walks even in the dark and ensure your peace of mind.

Hours of Service Time

The LED Dog Leash uses two CR2016 batteries, which are included in the package. These provide up to 80 hours of usage. Moreover, it boasts soft and comfortable padding around the handle to prevent strain on your wrists when your pet wants to run away from you.
